

Computer Lab & Discoveryville

BIS ~ Room 33

My name is Tracey Robertson Pierce. I grew up living the military family life as an Air Force "brat" and the third child of four along with my mother and father. Our family never lived outside of the United States, but we lived in many different states in the U.S. Both of my parents were born and raised in Batesville, MS so any vacation time for my father meant a trip to Mississippi to see the grandparents, uncles, aunts, and cousins. We all called Batesville "home" and longed for a day when we would all return to our family roots in Batesville.

I graduated from Cabot High School in Cabot, Arkansas in 1984. After high school, I attended the University of Mississippi where I graduated in May of 1988 with a Bachelor of Arts in Elementary Education. I married my husband, Brad Pierce (SP class of 1985) in 1987. We have two sons, Kristopher (Kris) and Dustin, also both South Panola graduates, attending from Kindergarten to 12th grade. Our oldest, an Ole Miss graduate in civil engineering, is married to Lauren and they have two sons, 2 & 5 years old. Our youngest son graduated from Blue Mountain College, and will be graduating in December from New Orleans Baptist Theological Seminary with his Masters of Divinity.

I started teaching at Batesville Intermediate School as a third grade teacher in September of 1988. I taught third grade for fifteen years, and in August of 2003, I began teaching computer and Discoveryville at BIS. This is my thirty-second year of teaching at Batesville Intermediate. I love BIS and the South Panola School District. Teaching is my passion and students are my heart. I believe educating children is one of the most important jobs in the world. Children are our future and they deserve our best. At BIS our motto is "Believe in Success" and all of our staff work very hard to see that the students in our school are successful so that they can grow up to become responsible citizens in our community, state, nation, and our world.
